Library Mate™ and Sort Mate™ awarded with Platinum

[Aars, Denmark, 01/10/2019] - Lyngsoe Systems is pleased to announce that we have received two platinum awards at Library Works' fourth annual Modern Library Awards (MLA). The MLAs were created to recognize the top products and services in the library industry in a truly unbiased format. Only customers with experience with the nominated products/services in their facilities were permitted to judge the products/services resulting in an unbiased score.

"We are extremely happy that the library community is seeing and feeling the benefits from the products we provide. We couldn't be prouder and will continue to deliver the high-quality standard that our customers have gotten accustomed to" says Lyngsoe Systems US President Cory McCoy.

The two awards are given to products which are well-known in installations around US and we expect to see even more of them in the years to come.

The Lyngsoe Library Mate™ 2100 received its third annual platinum MLA award in a row. It's an exterior patron return designed specifically to endure outdoor weather conditions and is easy to use for patrons while eliminating repetitive tasks for the staff.

The Lyngsoe Sort Mate™ 2000, the modular sorter system also received platinum MLA award. Designed to allow for flexible adaption to any small or big libraries and challenging premises.

For more information about the products and other library solutions, please come by our booth at ALA Midwinter meeting, visit our website or feel free to contact marketing@lyngsoesystems.com.

About Lyngsoe Systems

Lyngsoe Systems has been a world leader in the field of cutting-edge electronic logistics control for over 40 years and is leading within the radio frequency identification (RFID) technology. With a proven record of accomplishment of more than 3,700 installations in 56 countries, the Lyngsoe Systems team can demonstrate extensive experience in customer process knowledge, solution design, software development, integration, service and maintenance.

About LibraryWorks

LibraryWorks helps administrators to make informed decisions about library technology, automation and software, collection development and management, facilities and furnishings, staffing, purchasing, and other areas that drive effective strategic planning and day-to-day operations. Our family of resources can enable you to identify best practices, monitor trends, evaluate new products and services, apply for grants and funding, post or find a job, and even enjoy some library humour.

About the Modern Library Awards program

The Modern Library Awards (MLAs) is a program designed to recognize elite products and services in the library market which can help library management personnel enhance the quality-of-experience for the library user and increase the performance of their library systems.
