Lyngsoe Systems Receives Platinum second year in a row at 2018 Modern Library Awards

[Aars, Denmark, 01/24/2018] – Lyngsoe Systems, a global leading automation provider is pleased to announce it has received two platinum awards and an honorable mention at Library Works’ fourth annual Modern Library Awards (MLA). The MLAs were created to recognize the top products and services in the library industry in a truly unbiased format. Only customers with experience with the nominated products/services in their facilities were permitted to judge the products/services resulting in a balanced scoring.

“We are extremely happy that the library community is seeing and feeling the benefits from the products we provide. We couldn’t be prouder and will continue to deliver the high-quality standard that our customers have gotten accustomed to” says Lyngsoe Systems US President Cory McCoy.

The Lyngsoe Library Mate™ 2100 received its second annual platinum MLA award in a row. It’s an exterior patron return designed specifically to endure outdoor weather conditions and is easy to use for patrons while eliminating repetitive tasks for the staff.

The Lyngsoe Tote Check-In Server™ received a platinum MLA award. It’s the newest edition in the Library product line made for eliminating the requirement of individual scans of each item in every single shipping tote. It allows one single scan of a tote, checking in all the items inside it.

The Lyngsoe Sort Mate™ 2000, the modular sorter system received the honorable mention. Designed to allow for flexible adaption to any small or big libraries and challenging premises.

Jenny Newman, publisher and MLA program manager said, “It’s hardly a surprise that Lyngsoe Systems scored so well. They’ve been at the forefront of the industry since their company entered the market”.

The awards will be presented to Lyngsoe Systems at ALA Midwinter in Denver by LibraryWorks.

For more information about the products, [please read here](#)
